

Unit A - Tools for Algebra

Overview

The unit starts with an investigation of unit analysis and formula application. Then the unit moves on to a review of fraction operations and estimation techniques with instruction on the use of calculators in word problems. Similar practices are applied to decimal operations, estimation and problem solving. Fraction, decimal and percent conversions are reviewed for application in problem solving based on direct variation, similar polygons and percents.

21st Century Capacities: Decision Making

Stage 1 - Desired Results

<p>ESTABLISHED GOALS/ STANDARDS</p> <p>MP1 Make sense of problems and persevere in solving them MP2 Reason abstractly and quantitatively MP5 Use appropriate tools strategically MP6 Attend to precision</p> <p>CCSS.MATH.CONTENT.HSN.Q.A.1 Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays.</p> <p>CCSS.MATH.CONTENT.HSF.LE.A.1.B Recognize situations in which one quantity changes at a constant rate per unit interval relative to another.</p> <p>CCSS.MATH.CONTENT.HSN.Q.A.2 Define appropriate quantities for the purpose of descriptive modeling.</p> <p>CCSS.MATH.CONTENT.HSN.Q.A.3 Choose a level of accuracy appropriate to limitations on</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <th colspan="2" style="background-color: #D3D3D3; text-align: center; padding: 5px;">Transfer:</th> </tr> <tr> <td colspan="2" style="padding: 5px;"><i>Students will be able to independently use their learning in new situations to...</i></td> </tr> <tr> <td colspan="2" style="padding: 5px;"> <ol style="list-style-type: none"> 1. Model relationships among quantities. (Decision Making) 2. Demonstrate fluency with math facts, computation and concepts. </td> </tr> <tr> <th colspan="2" style="background-color: #D3D3D3; text-align: center; padding: 5px;">Meaning:</th> </tr> <tr> <td style="width: 50%; padding: 5px;"> <p>UNDERSTANDINGS: <i>Students will understand that:</i></p> <ol style="list-style-type: none"> 1.
