## Grade 11 Distance Learning Module 4: Week of: April 20 - April 24

# Chemistry Level II - Modified from Unit 4 - *<u>The Mole, Chemical Reactions, and Stiochiometry</u>*

### **Targeted Goals from Stage 1: Desired Results**

**Content Knowledge:** One mole of a substance contains Avogadro's number of particles and has a mass equal to the atomic mass of the element on the Periodic Table, in grams. Chemical formula describes the ratio of elements in a compound.

#### Vocabulary:

Skills: Make conversions among particles, mass, and moles of any substance.

#### **Expectation:**

Description of Task (s):	Resources and Materials:	Daily Checks (Return to Google Classroom or snapshots from a cell phone)
<ul> <li>Monday:</li> <li>Introduction to Avodgadro's Number</li> <li>Watch Edpuzzle video 1 on Avogadro's number and take notes.</li> <li>Save notes to submit when you have completed the module.</li> </ul>	Edpuzzle video – Introduction to Moles	
<ul> <li>Tuesday:</li> <li>Practice Solving problems Using Avogadro's Number</li> <li>Watch both Edpuzzle videos 2 and 3 on conversions and take notes on each</li> <li>Read Smartboard notes, copy into your notes for the module.</li> </ul>	Edpuzzle video - Video 2 (Module 4) Moles-to- Particles Edpuzzle video Video 5 (Module 4) Mole Conversions Ch 7 Sections 1-3.pdf	Mole WKST 1 Avogadro_s number.doc
Try Worksheet 1. As a first step, write known, unknown, and identify conversion factors. THEN you may proceed with dimensional analysis	KEY Mod 3 WKST 1.pdf	

Description of Task (s):	Resources and Materials:	Daily Checks (Return to Google Classroom or snapshots from a cell phone)
<ul> <li>Submit worksheet 1, when completed</li> <li>Save notes to submit when you have completed the module.</li> </ul>		
<ul> <li>Wednesday:</li> <li>Continue with problems from Tuesday. Once you have known, unknown, and have identified conversion factors, THEN you may proceed with dimensional analysis. Try Worksheet 2.</li> <li>Submit Worksheet 2 when completed.</li> <li>Save notes to submit when you have completed the module.</li> </ul>	KEY Mod 3 WKST 2 Avogadro_s number	Mole WKST 2 Avogadro_s number.doc
<ul> <li>Thursday:</li> <li>Calculating Molar Mass.</li> <li>Watch Edpuzzle video 4, on how to calculate Molar mass, take notes on the video</li> <li>Review Smartboard notes, copy into your notes</li> <li>Calculate the molar masses of compounds on worksheet 3. Just try problems 1.</li> <li>Save notes to submit when you have completed the module.</li> </ul>	Edpuzzle video - Video 3 (module 4) - How to Calculate Molar Mass Practice KEY Mod 3 WKST 3.pdf	MOLE WKST 3 Molar Mass
<ul> <li>Friday:</li> <li>More Practice with Mole Problems</li> <li>Solving Problems that use molar mass as a conversion factor.</li> <li>Watch Edpuzzle video 5, take notes</li> <li>Follow the same procedure (known</li> </ul>	Edpuzzle - Molar Mass Conversions KEY Mod3 WKST 4 Moles, Mass, Particles, Mixed	Mole WKST 4 Moles, Mass, Particles, Mixed.doc

Description of Task (s):	Resources and Materials:	Daily Checks (Return to Google Classroom or snapshots from a cell phone)
unknown, conversion factors) t finish Worksheet 3 from yester problems 2 and 3. You may disr problems 4 and 5.	day, egard	
Proceed worksheet 4. Write kn unknown, and identify conversi factor. THEN you may proceed dimensional analysis.	ion	
Submit worksheet		
Submit notes		
Content Check - Google Form C	Quiz	

Week criteria for success (attach student checklists or rubrics):

- □ watched all of the recorded videos and taken notes
- u worksheets 1, 2, 3, 4, attempted, and completed to your best effort, submitted on google classroom for feedback

Supportive resources and tutorials for the week (plans for re-teaching):

- online virtual Q and A help sessions (see Google Classroom for times and invite codes)
- read and re-read the textbook, and watch videos on Edpuzzle again
