

Grade 6

Distance Learning Module 11: Week of: June 15-June 18

Grade 6 Healthy Living: *Summer Fun & Sun Safety*

Targeted Goals from Stage 1: Desired Results

Content Knowledge: Being outdoors is healthy, and some sun exposure is good for us. It only takes a little time in the sun for most people to get the vitamin D they need which is important. Too much unprotected exposure to the sun's ultraviolet (UV) rays can cause skin damage, eye damage, and skin cancer, so it is important to know how to protect your skin while enjoying the outdoors and having fun.

Vocabulary: Sun, safety, skin, epidermis, ultraviolet radiation, sun protection factor (SPF), protection, dehydration, solar, sunscreen, UVC, UVB, UVA, melanin, melanocytes, tan, dermis, burn

Skills: Recognize the importance of protecting your eyes and skin from the sun, identify what the risks are for skin damage and skin cancer, identify ways that you can use safe sun practices to stay healthy
